

RFP #24005

Addendum No. 2

RFP TITLE: Fire Truck for the Chilliwack River Valley Volunteer Fire Department

RFP NUMBER: 24005

DATE ISSUED: Friday, April 19, 2024

CLOSING DATE AND TIME: Thursday, May 30, 2024, at 4:00 pm PST

ADDITIONAL INFORMATION

Schedule C – Detailed Minimum Apparatus Specification

Question: If you have the size of the vent fan that will be going into the rear compartment, as quite a bit of large equipment needs to be in that compartment, knowing the sizes of some of that equipment will assist in allotting enough space.

Answer: The rear cabinet needs to fit a Vent Fan that is 25" wide, 23" long, and 26" high.

Question: Will the department allow for the traffic cones from the rear compartment to be stored in any other compartment or on the tailboard using a storage pole, if not, do you happen to know if the cones being used are collapsible?

Answer: Chilliwack River Valley would prefer for the Traffic Cones to be stored on a "cone holder" mounted somewhere on the exterior of the Truck Body. Supplier may make recommendations for the location of the cone holder, or suggestions of an alternate cabinet to be used for cone storage.
